Title: Regarding condition of National Highways in Barak valley in Assam.

SHRI RADHESHYAM BISWAS (KARIMGANJ): Road connectivity in Barak Valley in Assam along National Highway is in a worse condition. National Highway Nos.-6, 8 and 37 are linked with Assam, Meghalaya, Manipur, Mizoram, Tripura and Bangladesh border. On these National Highways, places namely Malidhore to Srigouri 18 Kilometers, Srigouri to Baba hotel 20 Kilometers, Baba hotel to kasthayagram 15 Kilometers, Lowairpowa to Churaibari 20 Kilometers, Badarpurghat to Panchgram 2 Kilometers, last part of Dhateshwari to Bharobi road 5 Kilometers, Silchar Ziribham road 4 Kilometers, Silchar Lailapu road 5 Kilometers and some parts of Karimganj – Sutarkhandi road are dangerous for vehicle movement for the last 3 years specially in rainy season. People of the regions are regularly submitting memorandum to different authorities. From time to time I brought it to the notice of Union Government but problem has been not solved till today.

So, I request the Union Government to take the remedial step immediately.
